

## HART Communicator Software (DevCom2000) Datasheet

**HART-IP** **WirelessHART**

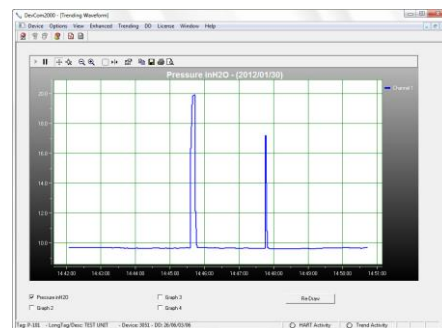

### Benefits:

- Free 10 day trial period with full functionality so you can try before you buy
- Complete configuration of all HART, HART-IP and WirelessHART devices using your Windows PC/Laptop/Tablet
- The most cost-effective DD based HART configuration solution available
- Supports HART DD files directly, no modified/special DD's required. You can add new HART devices just by adding the DD file without having to pay any update/maintenance charges
- Create and save HART device configuration templates for easy configuration of batches of HART devices (HART device cloning). Templates can also be shared with all our HART Communicators (Windows PC/Laptop/Tablet and Android Phone/Tablet)
- Document HART device configurations in PDF or TXT format. Provides reports/audit trails of HART device configurations
- Monitor and trend/graph any device parameter (e.g. PV, Multi-Variables, Device Status, etc)
- View and edit device variables. Device writes can be made in batches to speed up device configuration, hence saving time if several variables need to be changed
- Access WirelessHART devices via Ethernet/WiFi connection to WirelessHART Gateway
- Use with any HART Modem: RS232 (Serial) HART Modems, USB HART Modems, Bluetooth HART Modems, and WirelessHART Gateway and HART-IP via Ethernet/WiFi

### Features:

- Supports all HART devices including HART 7, HART-IP and WirelessHART
- Windows Explorer menu layout
- Device menu structure is easy to navigate
- Get to the information you want quickly
- Communication and Event Logs
- Complies with new EDDL (Enhanced DDL) standard (IEC 61804-3)
- Comes with all the latest registered DD's from the HART Foundation
